More than you can imagine

Come take a look
Principal’s Welcome

Our vision is to provide your child with opportunities that prepare them for ongoing learning and employment. We build caring global citizens who embrace lifelong learning into the 21st Century.

With a strong reputation for innovation and a tradition of academic and vocational success, Kiara College, in partnership with tertiary education and industry sectors, supports students to follow their aspirations and pathways for a wide range of careers.

These range from medicine, accounting, teaching, agriculture, hospitality and a range of trade careers.

We offer Approved Specialist Programs in Agriculture and Basketball. A vibrant Contemporary Music program offers students the choice of specialising in guitar, voice or drums and the opportunity to receive expert instrumental and voice tuition from the School of Instrumental Music.

Other initiatives have seen an increase into Certificate Courses that meet student interest and address future needs for employment in Tourism (Events Management), Business, Human Services, Agriculture and Engineering. Students with these qualifications are advantaged when following pathways to university, training or employment.

Our guarantee to you is to maximise opportunities for your child, whatever their dreams and aspirations.

Our extensive scholarship program is designed to support students to aspire to excellence and achieve their goals.

Anne Robinson
Principal
Kiara College
Curriculum Structure and Programs

In 2015, Year 7 students moved to secondary schools to access specialist courses.

As such Kiara College will continue to mirror the existing structures already in place.

All Year 7-10 students will study courses in line with the Australian Curriculum:

- English
- Mathematics
- Science
- Society and Environment
- Health and Physical education
- Technology and Enterprise
- The Arts

In addition, students who attend Kiara will also have the opportunity to commence studies in courses such as:

- Agriculture
- Dance
- Design and Technology
- Engineering
- Film and Media
- Home Economics
- Mechatronics
- Multimedia
- Music
- Robotics
- Web Design

Year 11 and 12 students are able to complete pathways with an ATAR, General and/or Certificate Courses for pathways to further study at universities or training colleges and to employment.

The STEM (Science, Technology, Enterprise and Maths) pathway supports students into a range of levels of technical careers eg: engineering. Specific programs, such as Curtin Mining Challenge, UWA Aspire, ECU and Secondary Pathways (DoE) support students in promoting the range of levels within STEM.
Student Services

Our Student Services Team includes a number of Coordinators such as Positive Behaviour, Health & Well Being, Engagement, the Associate Principal, School Psychologist, Chaplain and Nurse.

The team offers specialist expertise and programs to ensure that students’ physical, social and emotional wellbeing are supported.

Follow The Dream/
Partnerships for Success

This Aspirant Program for Aboriginal students reflects their high level of academic achievement, attendance and behaviour. The students engage in extra after school tutoring and opportunities to engage in a wide range of activities. The students proudly display their culture professionally through dance, public speaking, music and sport. Student successes have highlighted the Awards received and their participation in tertiary studies.

The AMP, Polly Farmer along with the Department of Education funded this successful program.

Community Events

College students participate with parents and community people to support weekend events with both City of Swan and Bayswater, such as Altone Alive.

Agricultural program students participate at the Royal Show and assist other farming groups with their animals.
Kiara College holds Approved Specialist status for programs in:

**Agriculture**

**Basketball**

As well as a Contemporary **Music** Program

These programs are for students who have a particular talent and interest in the appropriate area and are looking for a challenging learning environment. Approved Specialist Programs develop your child’s talents, teach relevant skills and knowledge to assist your child to reach his/her goals. Each program is led by teachers who are experts in their field and are skilled in recognising talent.

**Specialist Program applications must be submitted by Thursday 2nd July 2015.**
